

## **Herstmonceux Parish Council**

### **Parish Council Handyman Report 2020 – 2021**

Hello, Jamie here,

Thank you for your kind words, not only tonight but to everyone who stops and tells me what a great job I am doing. I really enjoy working outside, especially in the summer although I don't mind the cold and the rain either.

I have enjoyed keeping the parish looking tidy and serving the community and like that fact that I have such a local job, no driving, just walk out of my front door and I can start work.

I have been busy planting up the troughs and am planning some sensory planters for the children's play park. These will be made by a local carpenter and myself and will be another aspect of exploration for the children when they are in their play space.

I am also working with a local resident to plan a wild flower and native shrub and tree planting scheme along the new recreation ground carpark fence and wildflowers along the footpath. I am hoping to get the school involved in the planting of these areas.

Once the Herstmonceux Scouts start meeting again, we are working on a community composting project which I hope we can let you know more about once it is up and running.
